

ECOLO BAG REUSABLE

The non-woven polypropylene shopping bag is made from a **pressed polypropylene fiber**, a material that is light but strong and that is much more affordable than any traditional woven polypropylene.

Compare to a woven polypropylene bags, this non-woven shopping bag offers **textile and felted appearance**. The bag texture is smooth, soft and flexible. It folds easily and takes up little space, facilitating storage and manipulation.

In addition of being durable and **economical**, this bag is environmentally friendly since it is **recyclable** and **reusable**. Indeed, it can be reused hundreds of times. Moreover, during its manufacture, a small amount of water is used and the use of chemicals is very limited.

The non-woven polypropylene bag is fully **customizable**: Fabric, color, strength (capacity & weight), size, printing (1-3 colors), etc. Contact us and create your own shopping bag!
